## SEMI-HUSKED COCONUT

*Nature's Purest Hydration & Rich Kernel Source*

### Premium Semi-Husked Coconut

#### Product Overview

Sourced from the nutrient-rich coastal belts of India (Pollachi/Kerala/karnataka), our semi-husked coconuts are hand-picked at peak maturity. We ensure a high oil content and thick, white meat, making them ideal for culinary use and oil extraction. The "semi-husked" processing leaves a protective fiber tuft over the eyes, extending shelf life.
